

# WORKMANSHIP PROGRAM

*CPM COURSE*

## PURCHASE A CRAFTSMAN SHED

Over the 26 classes of the Workmanship Program's CPM Course, **we lead our students through the building of high quality sheds that are built like a residential home.** This helps students grasp the material they're learning by offering hands-on experience for each lesson, such as framing, roofing, siding, electrical, etc. Our instructors work alongside the students the whole way, ensuring the construction is done properly and the end result is high quality. Upon completion these sheds are sold to raise funds for the next semester's tools and materials. **Your purchase of one of these strongly built sheds** covers the cost to enroll one student in our program, which **empowers an individual to change the course of their life for the better.**

### THE STANDARD SHED

Price: \$3,000

Our base shed includes the following:

- 8' x 10' (or smaller) shed with pressure-treated plywood and floor joists.
- CertainTeed Vinyl siding
- GAF asphalt shingles
- Aluminum trim
- Single 3' cedar barn door.

**+\$150 delivery fee:** We deliver within 12 miles of Paterson. Obstacles like fences, retaining walls, and narrow driveways may hinder our ability to deliver the shed.

*\*Purchaser is responsible for any permit or town ordinance needed for a shed, as well as prepping the shed location: level ground and proper drainage (ex: gravel or concrete).*
